HILLER PACKAGE DETAILS

Pricing includes all discounts, labor, removal and haul away of old equipment, installation and hook up materials, permits, warranty registration, and disposal fees.

DISCLAIMER

Hiller LLC installation projects are installed to local code compliance and manufacturer specifications. All installation projects include equipment, material, labor, removal, installation, start-up, disposal fees, permits and inspections, unless notated otherwise by an authorized Hiller representative. HVAC projects will include the electrical to be upgraded to the first means of disconnect, if required by codes and/or manufacturer specifications. Should additional electrical upgrades or repairs, past included disconnects, be required during the installation of equipment, additional costs will be applied and will be the responsibility of the customer. All subcontractor costs will be the responsibility of the customer and should be paid directly to the subcontractor upon completion, unless otherwise notated by an authorized Hiller representative. Hiller LLC has the right to amend any estimate should the job scope require an amendment due to code compliance or manufactures specifications and could result in additional costs. Final payment is due upon completion, unless otherwise notated in writing by an authorized Hiller representative.
